

Odyssey HMS™ Judicial Module

The main functional areas are:

Incident tracking: This is the area where most of the data is entered for incidents. It displays and allows for the creation of all information for incidents, patrons, meetings, sanctions, and documents.

Meeting agenda: This area shows all meetings scheduled to take place on a specified day. It is broken down by judicial board and/or meeting type.

Event summary: This area displays all events that have (or should have) occurred due to the incident and the timelines associated with each.

Setup: This is the area that allows you to set up all of the base information that is required to track incidents, including incident types, violations, sanctions, and necessary documents.

For Colleges and Universities

OdysseyHMS™ JUDICIAL

A brief overview

The Odyssey HMS™ Judicial module is designed to both facilitate the student judicial process and assist you with Federal reporting as required by the Clery Act (Crime Awareness and Campus Security Act) of 1990.

With this module, you may track incidents, violations, and sanctions for patrons. The software will help you manage the process by allowing you to define a series of steps with due dates that need to be taken when a particular event occurs. The module also allows you to generate and track documents you send as part of the judicial process.

Easy to use

The Odyssey HMS Judicial module is organized in such a way that you don't need to exit from the module to complete judicial tasks. The module offers a variety of ways to view incident data.

Judicial module key features:

- **Incident reports can be entered quickly and easily.**
- **Notices/letters can be generated from within the Judicial system.**
- **Due dates for each event in your process can be tracked.**
- **Meetings are tracked and agendas can be generated.**
- **Clery reporting is seamlessly integrated into the incident tracking process.**
- **Incident reports can be entered remotely through the Internet.**

Odyssey HMS™ Judicial Module
